On May 3, 2025, the Eco Club of Government Degree College Haripurdhara organized a commendable activity focused on environmental conservation and responsibility. As part of the ongoing green campus initiative, students actively participated in the post-plantation care of saplings previously planted within the college campus. The activity aimed to nurture the plants by watering them, removing weeds, and ensuring the surrounding areas were clean and conducive to healthy growth. Under the guidance of faculty members and the Eco Club coordinator, students demonstrated a strong sense of commitment toward environmental sustainability. The event not only reinforced the importance of maintaining greenery but also instilled a sense of accountability among students for the well-being of the plants they helped bring to life. Such initiatives by the Eco Club reflect the college's dedication to fostering environmental awareness and promoting eco-friendly practices among the youth.
